The perspective of everything viewed from the sky is astonishing. Whether it's the vast view of a stunning landscape, a breathtaking city skyline or the never-ending horizon of the sea, there is always a powerful sensation of wonder and surprise after a helicopter flight. The following pages will take you up high to discover our beautiful world with a bird's eyes view.

# QUEENSTOWN HELICOPTER

## BREATHTAKING NATURAL BEAUTY

Stunning scenery made up of glaciers, ice shelves, waterfalls, hidden valleys and dream-like, turquoise-colored alpine lakes. As we're cruising over Milford Sound, one of New Zealand's most remarkable natural attractions, the views from our private helicopter just get better and better.

Milford Sound is renowned for its surrealistic landscapes, where native rainforest and waterfalls blend with the majestic fjords and wildlife, represented by seal colonies and dolphins. While I am being amazed by the landscapes at every turn, my knowledgeable guide Paul walks me through the highlights. You can tell that he enjoys showing people the beauty of his favorite zone.

Heli Tours Queenstown is owned and operated by Paul and Katherine, locals passionate about showing visitors the best of New Zealand's adventure capital.

With private access to several locations due to an exclusive multiple-park entry concession provided by the Department of Conservation in New Zealand, you will have exclusive access to secluded spots carefully chosen for every occasion.

The Heli tours range from exploring the rough beauty of the West Coast, including snow and glacier landings and private, remote beaches, to fishing, and having your own exclusive Mountain Chef experience; featuring seasonal ingredients, matched with award-winning, local wine. If you wish, combined with a luxury overnight cruise.

It's easy to understand why a scenic Heli adventure in New Zealand is on the bucket list of many. Milford Sound allows you to connect with nature and disconnect from everything else for a while. It's an amazing feeling.
